**REQUEST FOR REVISION TO PATENT
TERM ADJUSTMENT UNDER 37 CFR § 1.705(d)**

Sir:

Applicants hereby request revision of the Patent Term Adjustment (PTA) for U.S. Patent No. 7,011,872 which issued on March 14, 2006. This Request is submitted with a check for \$200 and within two months of the patent issue date in accordance with 37 C.F.R. §1.705(d). To the extent that any additional fees are due and owing for this Application, the Commissioner is hereby authorized to charge them to Applicants' undersigned attorney's Deposit Account, 02-1818.

The Issue Notification mailed on February 22, 2006, set forth a 258 day PTA. Applicants have reviewed this PTA and hereby request that this determination be adjusted to 498 days. The reasons for this revision are set forth below.

The PTA was based on the following calculation.

USPTO Delay	- Applicant Delay	= Total PTA
567 days	309 days	258 days

In determining the Applicant Delay, the Patent Office included a 120 day delay based on a Rule 1.312 Amendment (312 Amendment) filed by Applicant on July 15, 2005. Applicants'

312 Amendment, however, was actually a *Response to Examiner Initiated Telephone Interview* (set forth at Tab 1) and was submitted to the USPTO on April 21, 2005. This 312 Amendment was submitted in response the Examiner's request for an amendment to the specification during a telephone interview on April 20, 2005. See *Examiner Interview Summary Record* dated April 20, 2005 set forth at Tab 2. The Examiner requested this amendment to the specification after issuance of the Notice of Allowance mailed on January 12, 2005. As the 312 Amendment was requested by the USPTO, Applicants respectfully submit that the 120 day delay resulting from the 312 Amendment be attributed to the USPTO Delay. Consequently, Applicants submit that the PTA be revised as follows.

USPTO Delay	- Applicant Delay	= Total PTA
687 days (567 + 120)	189 days (309 - 120)	498 days

Applicants' Request for Revision under 37 C.F.R. §1.705(d) is timely as 1) the Notice of Allowance mailed on January 12, 2005 provided no PTA, and 2) the USPTO's request upon Applicants to amend the specification occurred after the mailing of the Notice of Allowance and after Applicants' payment of the issue fee on April 19, 2005.

Applicants also note that this patent is not subject to a terminal disclaimer and there were no circumstances constituting a failure to engage in reasonable efforts to conclude processing or examination of this application.

Respectfully submitted,
